

## Steel pipe, plates, profiles and bar

Shandong Topsy Steel Co, Ltd, based in Shandong province, China, is a professional steel manufacturer and supplier.

The company can provide steel pipe (seamless steel pipe, welded steel pipe and stainless steel pipe); steel plate (checkered sheet); profile steel (channel

bar, angle bar, H-beam and I-beam); and steel bar (round or square).

The company, which is located at the northwest bank of Jiao Zhou bay and beside the Yellow Sea, owns the complete production technique and related equipment for coking, sintering, iron, steel, steel rolling, etc, including the

related energy source power system. Its products are marketed all over China, and exported to North America, Europe, the Middle East and Southeast Asia.

## Export order for duplex seamless pipes

Variety Steel, India, has obtained its first export order from a Switzerland-based company. The order, which was completed successfully from stock, consisted of duplex seamless pipes conforming to ASTM A790 and SAF2205, in the size range 6" NB to 8" NB x Sch 40S, with a total order value of approximately US\$160,000.

In order to keep up with the global trend and fulfil the requirements of its

customers in India, Variety Steel has expanded its stock range as follows: stainless steel welded/seamless pipes and tubes from 6 to 609.6mm OD; stainless steel EFW pipes (large diameter from 168.3 to 1,016mm, heavy wall thickness from 3.4 to 60mm); duplex and super-duplex welded/seamless pipes and tubes from 6 to 609.6mm OD; duplex and super-duplex EFW pipes (large diameter from 168.3 to 1,016mm, heavy wall thickness from 3.4

to 60mm); stainless steel, duplex and super-duplex round bars in diameters from 6 to 400mm; high nickel alloy welded/seamless pipes and tubes from 6 to 609.6mm OD; and high nickel alloy round bars in diameters from 6 to 400mm. High nickel alloys include Hastelloy, Inconel, Incoloy and Monel.

## 100 years of supplying steel tubes

Carl Froh GmbH has been a supplier of tailored and high-quality precision steel tubes since 1911. Guided by the requirements of its customers, the company continuously develops products, components and niche solutions.

The company uses HF-welding machines and equipment for processing such as high performance cutting machines, including washing installation. The production range for round tubes is from 10 to 90mm, with wall thickness from 0.6 to 4mm. Quality

standards are ISO/TS 16949:2002 and DIN EN ISO 14001.

Examples of products for automotive product applications include drive shafts, cardan shafts, shock absorber tubes, crashbox modules, bumpers, pre-tensioned seat-belt and lock reinforcement, roll bars, side impact protection, airbag components, cross-members, frame side members, stabilisers, axle components, structural parts, tubes for hydroforming, column and cylinder tubes, steering tubes, head rests, seat adjustment, seat

frame, Isofix, and windscreen wiper frame tubes. The company produces items for industrial applications such as household industry, heating and cooling technology, furniture industry, linepipe systems, mechanical engineering, gardening industry, leisure industry, commercial vehicles, environment engineering, renewable energies, antenna masts, traffic sign tubes, and tubes for electrical installation.

## Components for fluid industrial processes

Béné Inox is a producer and a distributor of technical stainless steel components for the construction and maintenance of fluid industrial processes.

The company can supply 30,000 products for applications in fields such

as food industry, chemistry, cosmetic, pharmacy and oil.

For fluid processes, the company can supply tubes, unions, valves, spigots, pipe fittings, flanges, measurement and instrumentation conforming to

standards that include ANSI, ISO, SMS and CLAMP. It can also provide screws, bolting, fastenings, fasteners and anchoring.
